ABDUL KALAM

BSc IT Fresher | Java, SQL & Backend Development

Mumbai, Maharashtra, India | +91 93235 05569 | abdulka0440r@gmail.com | LinkedIn

PROFILE SUMMARY

BSc Information Technology student with a CGPI of 9.53 and a strong foundation in Java, Object-Oriented Programming, SQL, DBMS and REST APIs. Gained practical experience studying, debugging and enhancing software applications and backend systems using Python and PostgreSQL. Comfortable working in teams, discussing problems collaboratively and explaining technical concepts clearly. Interested in beginning a career in Java or backend development and strengthening technical skills through real-world projects.

TECHNICAL SKILLS

Programming Languages:	Java, Python, SQL
Frontend:	HTML, CSS
Backend and APIs:	REST APIs
Databases:	PostgreSQL
Development Tools:	Git, Postman, IntelliJ IDEA, Eclipse, Visual Studio Code, PyCharm, Android Studio
AI Tools:	ChatGPT, Claude
Core Concepts:	Object-Oriented Programming, DBMS, MVC Architecture, Client-Server Architecture, Software Engineering, SDLC, Agile Methodology, Waterfall Model, Scrum Basics
Basic Data Structures:	Arrays, Stacks, Queues, Linked Lists, ArrayList, Strings, Searching, Sorting
Soft Skills:	Team Collaboration, Active Discussion & Problem-Solving, Explaining Technical Concepts Clearly

PROJECTS

Face Recognition Attendance System **2025–2026**

Python, OpenCV, face_recognition GitHub | Live Demo

- Developed and enhanced a web-based attendance system that verifies students through facial recognition before recording attendance.
- Worked on teacher and student registration, multiple-class enrolment, attendance sessions, face verification, liveness checks and location validation.
- Managed relational data for users, classes, lecture sessions and attendance records.
- Connected the user interface with REST APIs for registration, authentication, face verification and attendance reporting.
- Debugged and improved existing modules while studying the complete application workflow from user interaction to database storage.

ElderCare Connect — Ongoing Project **2026–Present**

Supabase, PostgreSQL, Gemini API GitHub

- Contributing to an existing elder-care web application designed to help family members remotely support elderly parents.
- Studied and improved modules related to Supabase Authentication, parent-child linking, medicine management, wellbeing checks and SOS alerts.
- Worked with Supabase PostgreSQL, Realtime and database-access policies to understand how health-related data is stored and shared with linked users.
- Analysed Gemini API integration for general health explanations and an AI-companion feature without treating the output as a medical diagnosis.
- Currently improving database consistency, permission handling, error handling, notification reliability and project documentation.

EDUCATION

Laxmichand Golwala College of Commerce and Economics **2023–2026**

Bachelor of Science in Information Technology (Mumbai, Maharashtra) CGPI: 9.53

M.H. Saboo Siddik Technical High School and Junior College **2021–2022**

Higher Secondary Certificate (12th) — Science, Maharashtra State Board, Mumbai Percentage: 57.33%

City of Los Angeles Municipal Secondary English School **2019–2020**

Secondary School Certificate (10th) — Maharashtra State Board, Mumbai Percentage: 71.20%
